Countries: Ukraine

What is the project about?

- Consulting service for evaluation of supports in prosthesis production Ukraine

Challenges

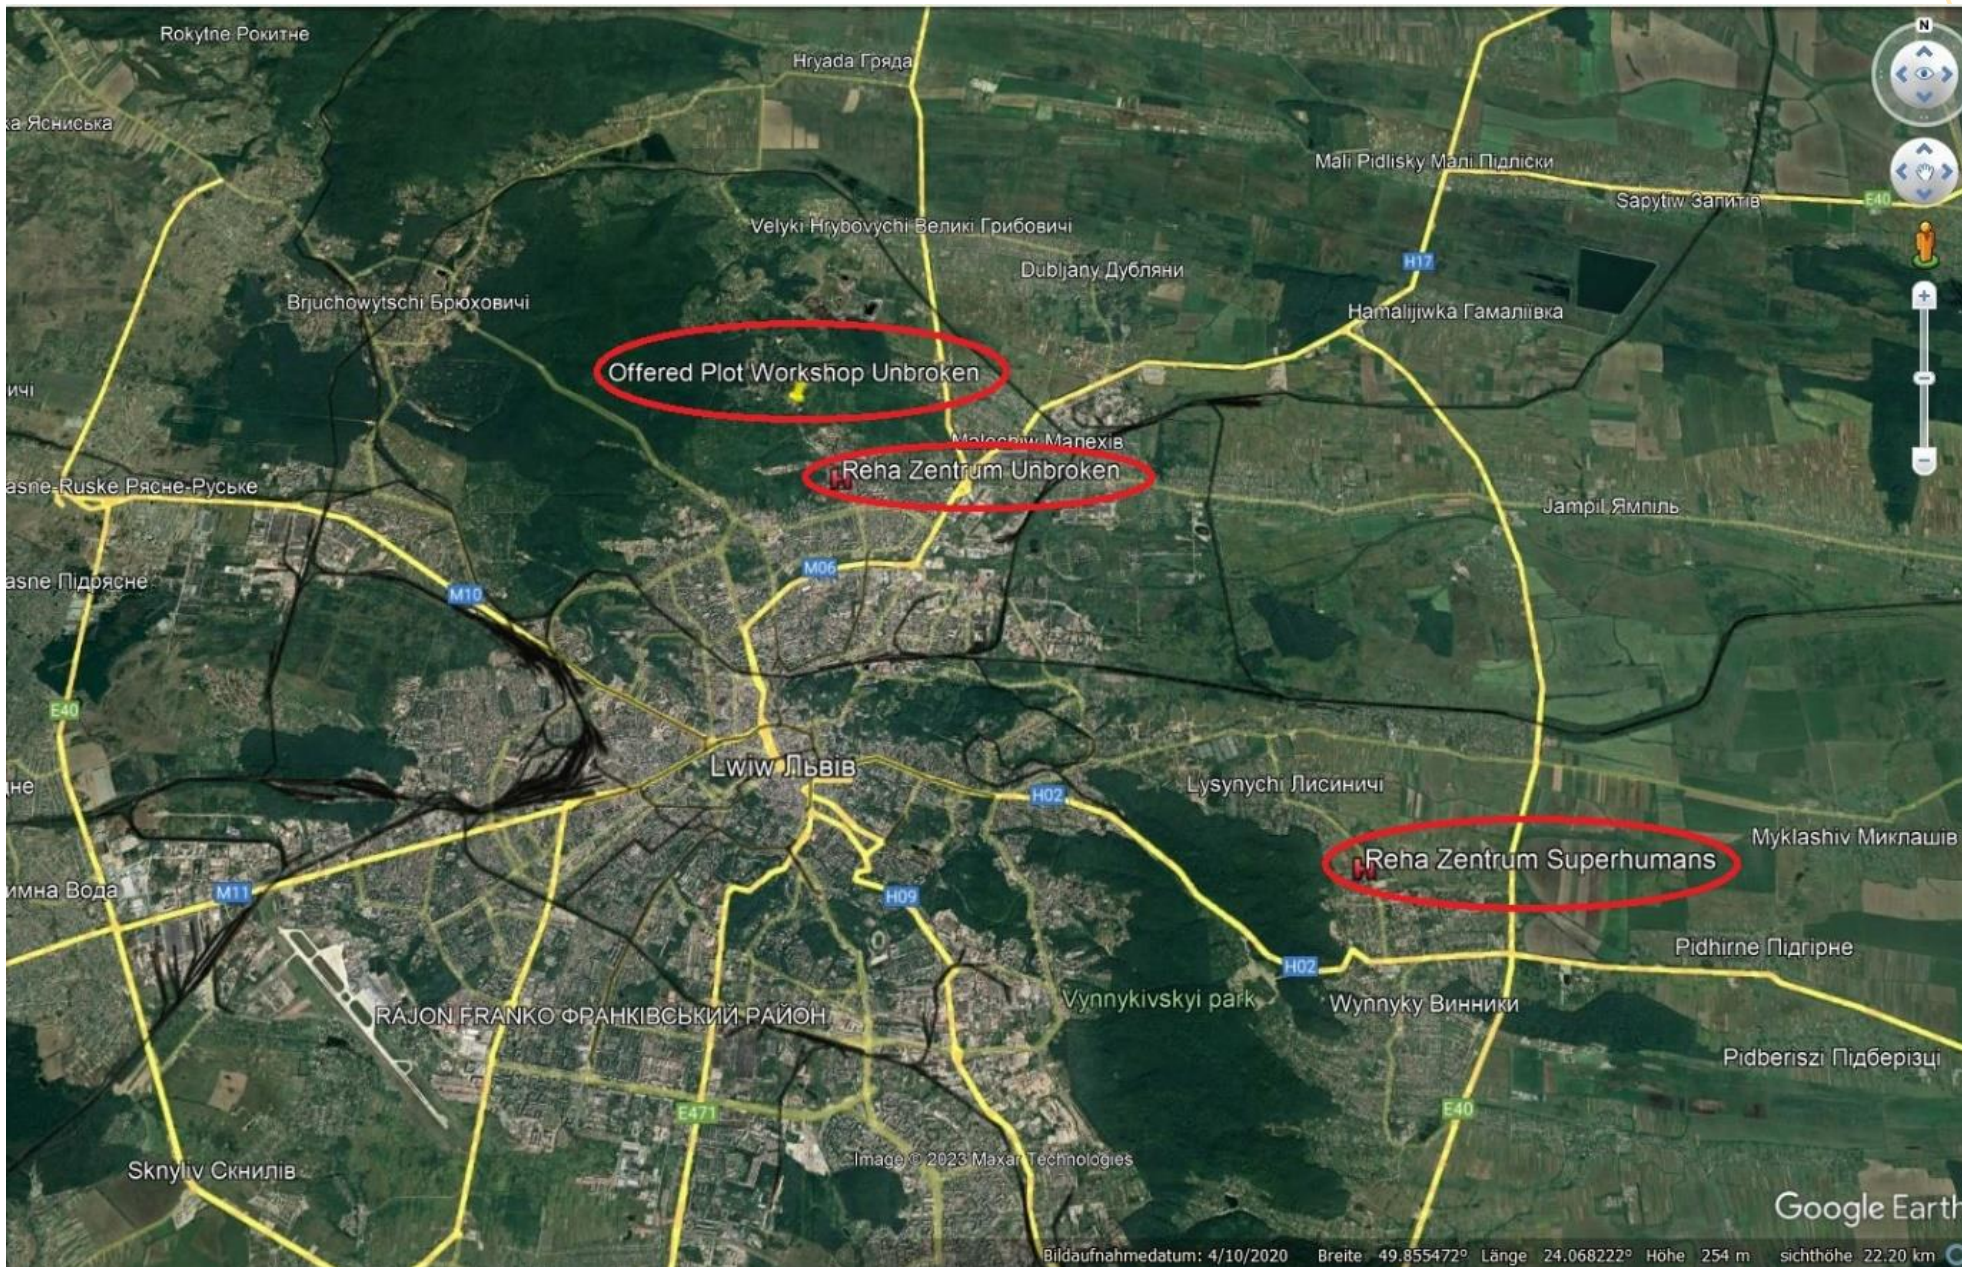

- reality

(Intended) Results/Impact:

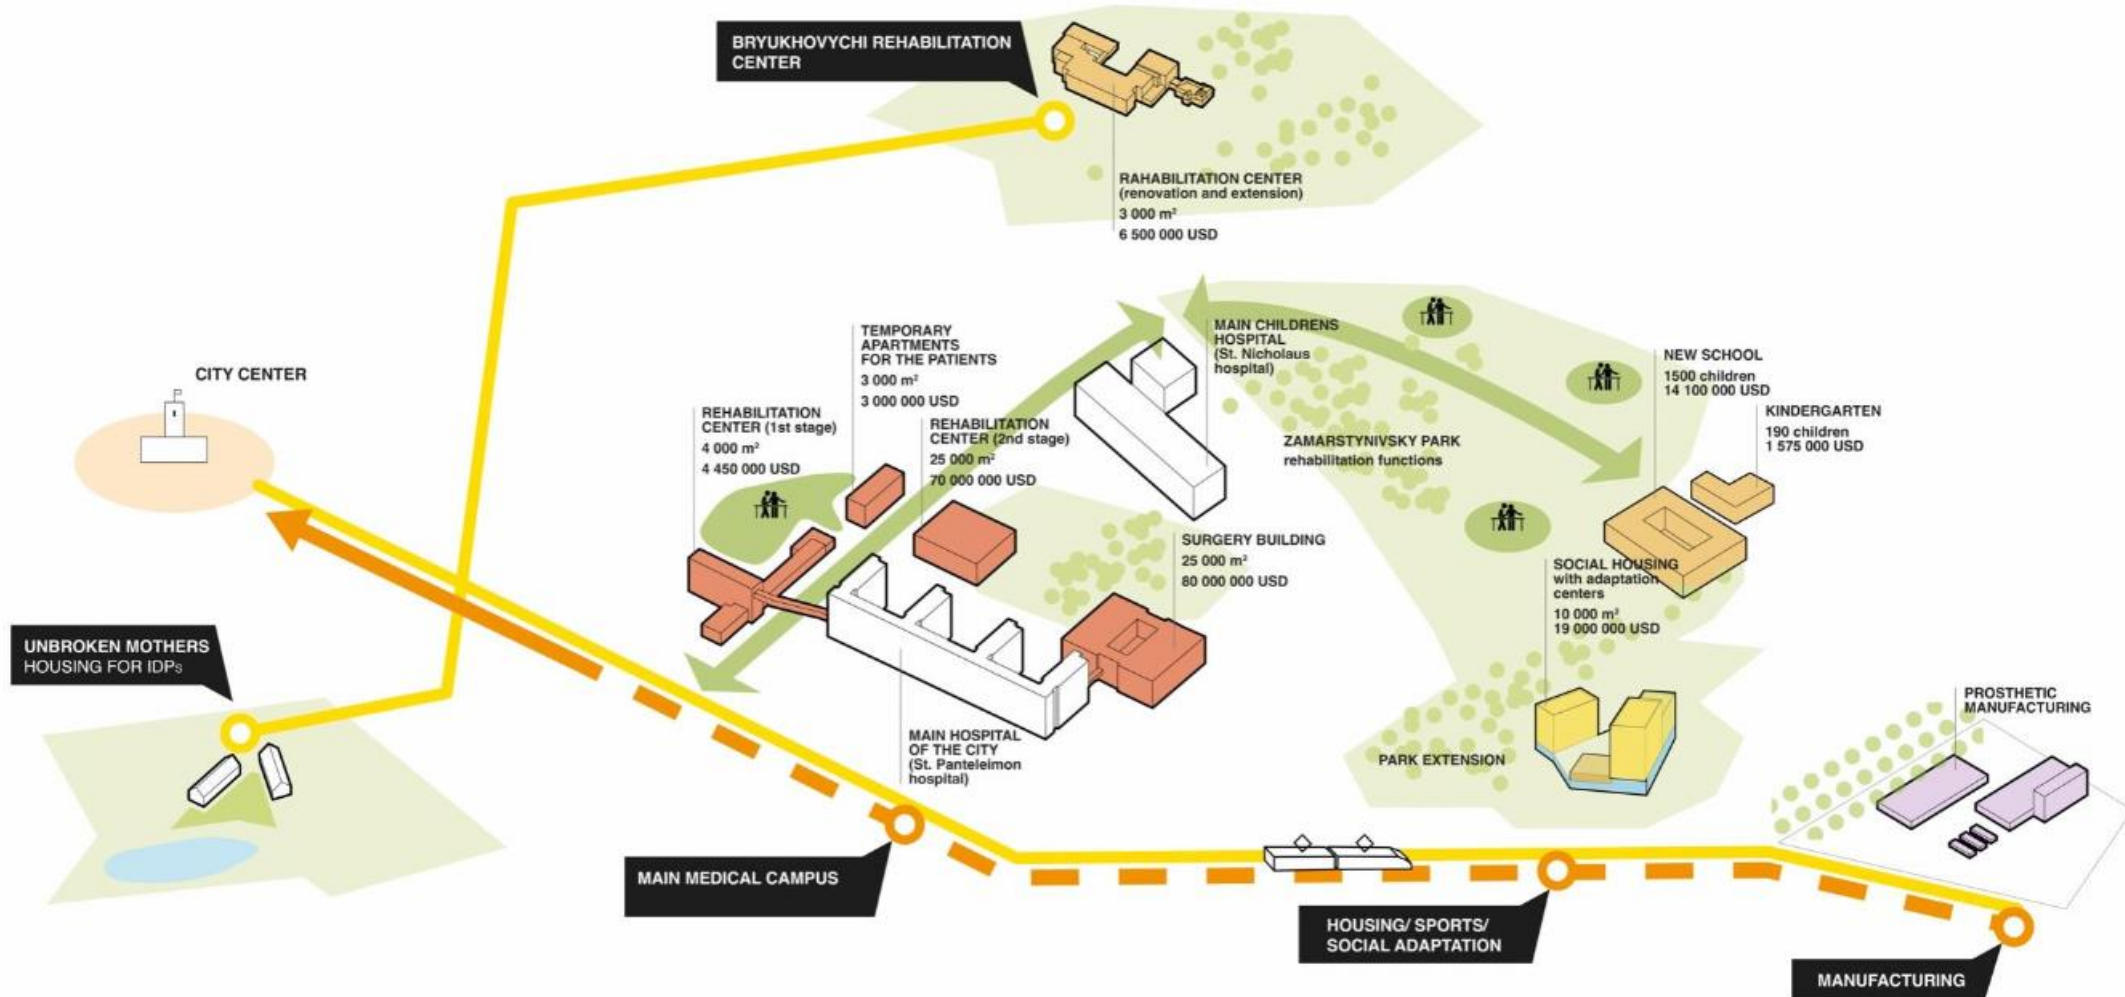

- Needs

Way forward:

- Project Workshop

UNBROKEN rehabilitation ecosystem in Lviv

Visiting Unbroken and Superhumans at Lviv

- Both organizations are in desperate need of immediate support
- P&O (OT) is known, OST is not yet widely used. Health insurance benefits also need to be rethought. There is a distinct imbalance here. OST is not yet widespread.
- Promote the advantages of a joint appearance of both trades with many interfaces.

Rehabilitation is practiced
in many ways
(physiotherapy,
psychotherapy).

The building was
inaugurated a few days
after my visit on 7000sqm.

10.000 patients/year

Old workshop was far too small

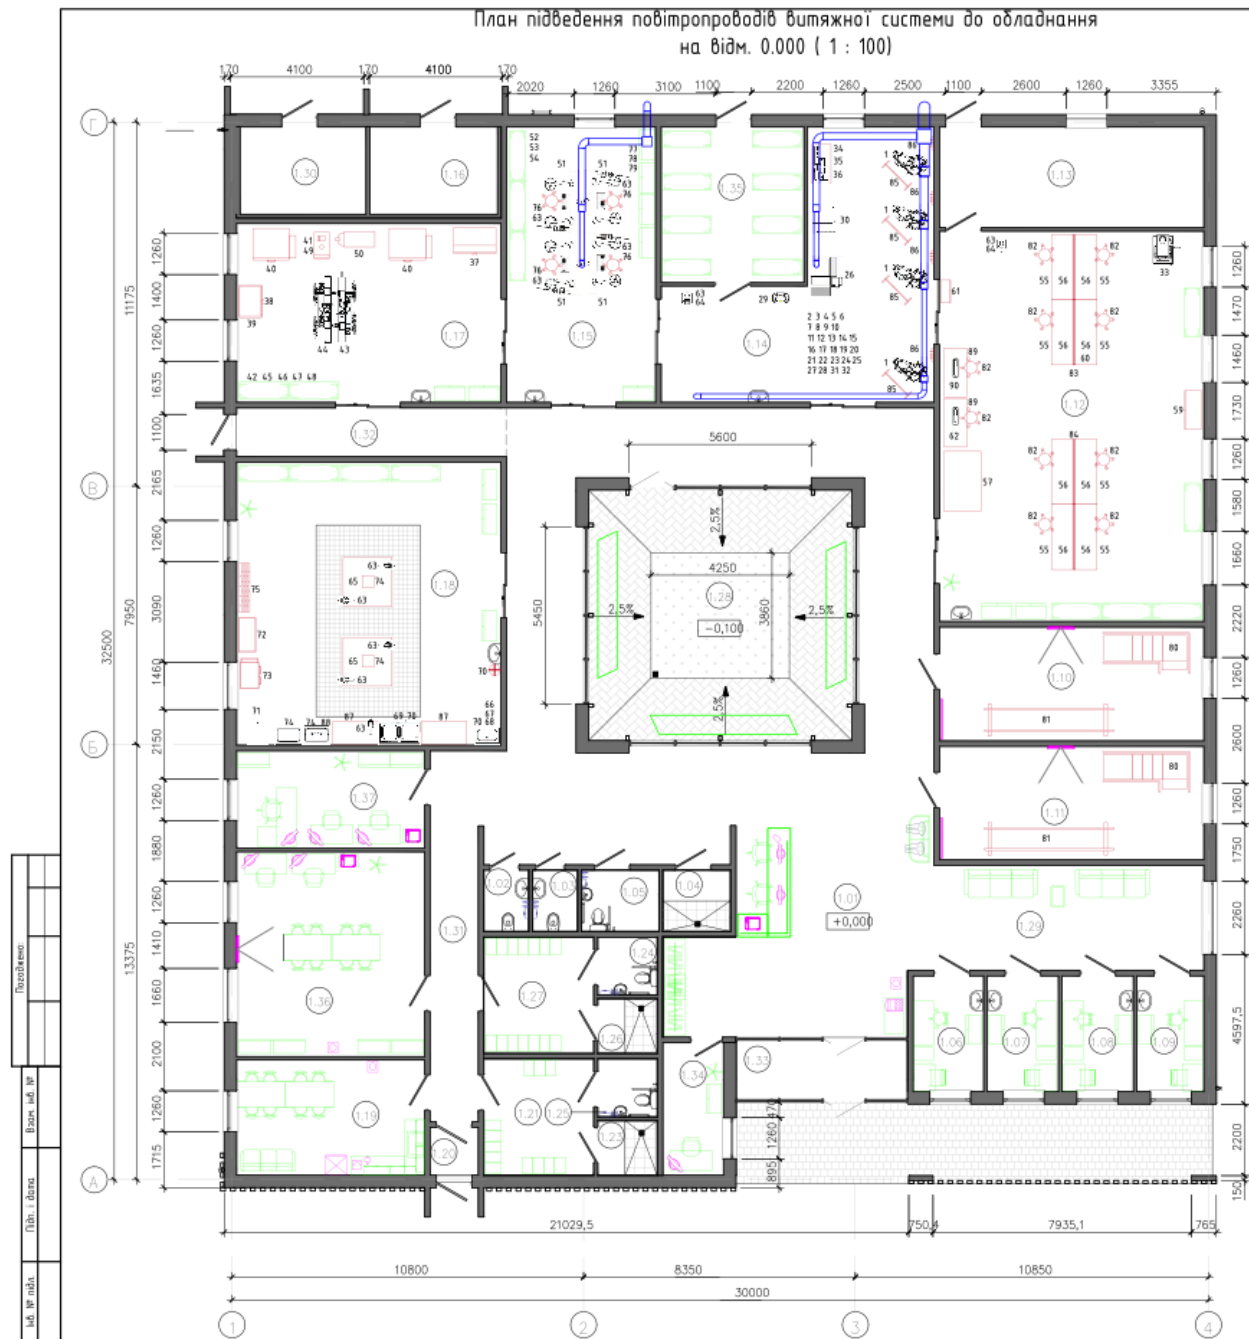

The workshop
is expanded
for 9
employees in
the basement
of the hospital

New construction of a workshop is in the works started at May 2023.

All in one Floor, with inner courtyard accessible

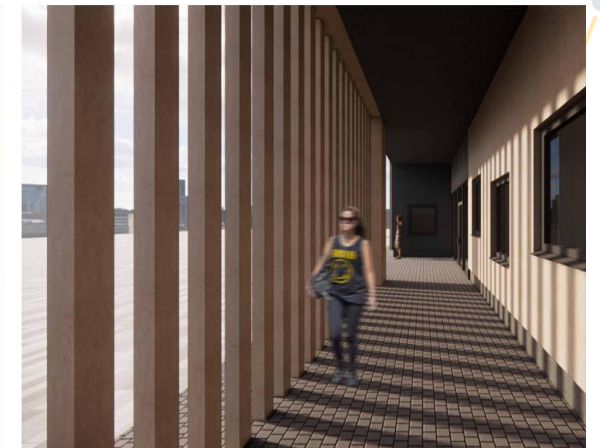

View of the new workshop

- Workshop for up to 30 employees on approx. 900sqm
- we from the health cluster are ready to support and are waiting for the deployment
